### **Pros vs. Cons of Natural Disasters**

Of course, we know that there really are no “pros” when a natural disaster occurs! However, some outcomes from one disaster may be better than the outcomes from another disaster. Your job while listening to your peers’ presentations is to think carefully about the information presented and choose several points from each presentation to classify as better or worse, compared to what happens in other natural disasters.

<b>Earthquakes in San Francisco, California</b>	<b>Hurricanes in New Orleans, Louisiana</b>
<i>Pros</i>	<i>Pros</i>
<i>Cons</i>	<i>Cons</i>
<b>Tornadoes in Greensburg, Kansas</b>	<b>Volcanic Eruptions at Mt. St. Helens, Washington</b>
<i>Pros</i>	<i>Pros</i>
<i>Cons</i>	<i>Cons</i>
